

CROSS-BOTTLED IBC RECONTAINER

The highest quality cross-bottling with brand new, certified SCHÜTZ universal inner bottles.

NEW!

RECONTAINER

With the new RECONTAINER, SCHÜTZ is making a further contribution to the conservation of natural resources by offering an economical and safe reconditioned IBC for simple applications and uses.

- Standard IBC models by other manufacturers are reconditioned according to SCHÜTZ's quality standards and offered with a uniform specification
- With a new SCHÜTZ universal inner bottle
- Steel grid and pallet are cleaned and repaired

In case of technical concerns or questions: tcs@schuetz.net
