

Supply Chain Planner North Branch, New Jersey

As a Supply Chain Planner, you will work across two essential commodities for this Organization, steel and plastics. You will work closely with the Procurement team and have the ability to work with and learn from multiple senior stakeholders in the organization including the procurement managers, Directors and C-Suite Leaders.

As the Supply Chain Planner, you will:

- Work across the steel and plastics commodities across multiple manufacturing sites in the US
- Assess and manage the inventory of the multiple sites to ensure correct amounts of your commodities are stored and ordered
- Work with the Procurement team to assist in the negotiation of the steel and plastics plants
- Provide subject matter expertise to the senior leadership team

You should have:

- Experience working in a supply chain planning role across one of the raw material plants (steel and / or plastics would be a major bonus)
- Skilled in management of logistics and inventory of commodities
- Experience working across multiple sites
- Bachelor Degree in a relevant discipline (supply chain , business, finance)

This is an excellent opportunity for a raw materials/supply chain Planner to join a company with excellent and rapid progression opportunities.

If you would like to work for an international operation that takes care of its staff and supports them in their own personal development, we are the right partner for you.

We welcome your application by email to: info1usa_northbranch@schuetz.net
